PERSONAL PROJECTS

Alignment Healthcare (Honored Citizens Choice Health Plan) - SSIS & SQL Developer (08/2017 - Present)

- Worked with a US based healthcare client to develop and enhance software applications for processing data and health insurance claims on .NET and VB.Net platforms.
- Project involves creating API and web pages to validate the claim details, member details and view the health plans. Using SSIS member details and claim details files are loaded into the database and reports are generated as per client requirements.
- Worked on onboarding new enrollments received by the client. Developed several SQL Server Integration Service (SSIS) packages to automate file processing.
- Writing optimized SQL server queries.
- Automated the file processing for audit files to reduce human effort by 80%.
- Involved in testing and validating the results doing Unit Testing, Integration and system testing.
- Been a part of daily Scrum meetings and Sprint planning.
- Worked on the enrollment process and it's related functionalities in portal, which facilitates the user to enroll members, Primary Care Physician change, check eligibility and other related service.
- Worked in Reporting services for automating reports and letters for the end-user .
