PROJECT UNDERTAKEN

Project 1 :

- Project Name** : Global Trade System
- Client** : Credit Suisse, Switzerland.
- Role** : Functional Testing, Database Testing.

Project Details:

Credit Suisse Group AG is a Swiss multinational investment bank and financial services company founded and based in Switzerland. Headquartered in Zürich, it maintains offices in all major financial centers around the world. As the second largest bank in Switzerland, it is considered a "Bulge Bracket" bank providing services in investment banking, private banking, asset management, and shared services. Credit Suisse is known for its strict bank–client confidentiality and banking secrecy practices.

Credit Suisse has two divisions, Private Banking & Wealth Management and Investment Banking. A Shared Services department provides support functions like risk management, legal, IT and marketing to all areas. Operations are divided into four regions: Switzerland, Europe, the Middle East and Africa, the Americas and the Asian Pacific. Credit Suisse Private Banking has wealth management, corporate and institutional businesses.
