PERSONAL PROJECTS

PG Mini Project (12/2021 - 01/2022)

- Project Name : Snake Game
- Application Software : Python
- Project Description : This project in PYTHON of Snake game is a simple console application with very simple graphics. In this project, you can play the popular "Snake Game" just like you played it elsewhere. You have to use the up, down, right and left arrows to move the snake. Foods are provided at the several co-ordinates of the screen for the snake to eat. Every time the snake eats the food, its length will be increased by one element along with the score.
