PROJECTS

Residential Building G+1

2 months

LDR SENSING LIGHT

25 days

Light dependent resistor is a light controlled variable resistor. When the light level decreases the resistance of the LDR increases. It automatically switches off the day when sunlight falls on and it automatically switches on in darkness. Finally completed my project by using this LDR sensing lights in streets.

Sewage treatment plant

2 months

STP is a process of removing contaminants from domestic and industrial waste water. There are three stages: physical, chemical and biological treatment. Poly electrolyte, sodium hypochlorite, ferric chloride are used. Its aim is to produce environmentally safe sewage water called effluent and the treated sludge is used as fertilizer in agricultural fields.

ACHIEVEMENTS & AWARDS

Certified for attended two days National workshop on " contemporary issues in concrete and construction industry.

Have certified for attending "waste management and social entrepreneur" in PSG coimbatore.

Certified for attending prof potenz in CIT Coimbatore.

INDUSTRIAL EXPOSURE

Sakthi sugars Erode

Waste water treatment plant coimbatore

Solid waste management plant coimbatore

Eachanari Flyover

INTERNSHIP

Excel construction SITE Supervisor, Building plan drawing using Auto cadd.

AARVEE Constructios Building drawing using E - TABS

PERSONAL STRENGTHS

Discipline, communication, dedication and determination.

PERSONAL PROFILE

Date of Birth : 21/06/1999

Marital Status : SINGLE

Nationality : INDIAN

Known Languages : English, Tamil.

DECLARATION

I here by declare that above mentioned information is correct to the best my knowledge and belief.
