EXPERIENCE SUMMARY

- **11+ years of competitive experience in IT industry , Software development, Data Analytics etc.**
- Experience in all phases of software development life cycle like Requirement Analysis, Design, and Development.
- Good experience in working with technologies like **Python, Visual Studio .NET 2005/2008/2010/2012 /2015, C#. NET, ASP.NET, VB.NET, .NET Framework 2.0/3.0/3.5/4.0/4.5 ADO.NET**
- Experience in validating user inputs using validation techniques both **Client & Server** side.
- Experience in Cloud Computing
- Experience in Data Analytics
- Experience in development with **SQL Server 2005, 2008, 2012, 2016& SSIS.**
- Good experience in writing SQL queries, and T-SQL blocks like - Stored Procedures, Triggers & Functions etc.
- Good Experience in GUI design and development for Web Forms using Asp. Net.
- Exposure to development with **Jquery, Java Script, HTML, Skins, CSS & Angular.**
- Having strong Knowledge & exposure in **Web Services & WCF.**
- Having good knowledge & exposure in **SSRS & Crystal Reports.**
- Ability to work in the complete software development life cycle involving development and testing.
- Ability to work well in both a team and individual environment.
- Capable to delve into the new leading technologies.
- Good at interpersonal skills, committed, result oriented, hard working with a quest and zeal to learn new technologies.
- Sound educational background with professional degree in Computer Science Engineering from reputed institution.

PROFESSIONAL SUMMARY

- Working as **Senior Analyst** in **BA Continuum (Bank of America)**, from Apr 2017 to till.
- Worked as **Technology Analyst** in **INFOSYS**, from July 2014 to Mar 2017.
- Worked as **Software Engineer** in **SourceHOV Pvt Ltd**, from May 2012 to July 2014.
- Worked as **Developer** in **The Cram Group India Pvt Ltd.**, from Feb 2011 to April 2012.
- Worked as **Software Programmer** in **Sofia Infology** from- july'2009 to Jan 2011

EDUCATIONAL PROFILE

- **Bachelor of Engineering (BE)** – Seethaiammal Engineering College, Madurai. (2005-2009) – 73 %(First Class).
- **HSC**, Thiagarajar Model Hr Sec School. (2004-2005) – 72.3% (First Class).
- **SSLC**, Thiagarajar Model Hr Sec School. (2002-2003) – 84% (First class).

TECHNICAL SKILLS

Area	Skill Set
Languages	Programming Languages – C, C++, C#, VB, Python, OOPS Database Query Languages - T-SQL (DDL, DML).
Platforms/ Applications	Microsoft Technologies - .Net 2.0, .Net 3.5, .Net 4.0,.Net 4.5 ADO.Net. Web Technologies - ASP.NET, Html, Java Script, JQuery, CSS3, Angular Js. Services – Web Services, Windows Services, WCF.
Software	GUI Tools - Visual Studio (2005, 2008 and 2010,2015) Database Tools - Microsoft SQL Server 2000/2005/2008/2012/2016,MySql. Data Transformation - DTS, SSIS.
Operating Systems	Windows Versions, Unix
Reporting Tools	Crystal Reports, SSRS Reports.

PROJECT DETAILS

PROJECT 1

Title : Client Money handling.

Environment : Quartz, Python,

Database : Ms-Sql server 2016.

Team Size : 8.

Role : Team member & Manage team.

Period : April 2017 to Till

Description :

Client Money is money that a Firm holds or receives for or from a client and can be of any currency. This could be in the form of cash, draft, cheque or electronic transfer and includes money held by the Firm as stakeholder, and which is not immediately due or payable on demand to the Firm for its own account and the money needs to be segregated as per the governmental regulatory laws and rules

Our application handling all these activities and monitoring the client money requirement on daily basis and provide end report to the regulatory body

Roles & Responsibilities:

- Involved in Requirement Analysis and Gathering by co-ordination with business users.
- Understand the requirement end to end of the new system from the business users
- Involved in creating High Level and detailed level design for implementation.
- Involved in designing databases & creating tables/functions/triggers/stored procedure in SQL Server.
- Responsible for code changes and setting the Environment and Configuration
- Code Development – including try catch blocks, logging exceptions etc
- Responsible for demo and explaining the business functionalities to the users on end every agile sprint
- Responsible for Providing unit testing of data and implementing the system.

PROJECT 2

Title : Medical – Enrollment Handling in QNXT.

Environment : .Net Framework 4.5, C#.Net, ASP.NET, WCF, JQuery, JavaScript, Tsql, SSIS & QNXT.

Database : Ms-Sql server 2012.

Team Size : 5.

Role : Team Member.

Period : August 2014 to March 2017

Description :

Medical Eligibility Inbound interface that loads the FAME file records send by State government into QNXT application based on eligibility criteria. This application developed for L.A.Care (Los Angles) a Health Care insurance company who can receive the member eligibility from the state government of Los Angles (U.S) in Standard format the application reads the file and load the member Enrollment information and its related records like PCP, Attributes, Coverage Details into QNXT by crossing various functional validation by handling 13 month history data.

It also has UI error processing screen (web based) which allows the business people to correct the records and trigger the process on their needs.

Roles & Responsibilities:

- Involved in Requirement Analysis and Gathering by co-ordination with Onsite team.
- Understand the requirement end to end of the new system from the customers
- Involved in creating High Level and detailed level design for implementation.
- Involved in designing databases & creating tables/functions/triggers/stored procedure in SQL Server.
- Responsible for code changes and setting the Environment and Configuration in QNXT
- Code Development – including try catch blocks, logging exceptions etc
- Provided Daily status updates to Onsite Team and Project Manager.
- Responsible for Providing unit testing of data and implementing the system.

PROJECT 3

Title : e-Services (<https://eaccess.cbcinnovis.com/>)

Environment :

Module 1(Web) : VS.Net 2010, .Net Framework 4.0, ASP.NET with C#, Web service, Tsql, SSRS Reports.

Module 2(Tool) : VS.Net 2010, .Net Framework 4.0, VB.NET with VB, WCF, and Tsql.

Database : Ms-Sql server 2008.

Team Size : 4.

Role : Team Member.

Period : September 2012 to July 2014

Description :

e-Service is an electronic invoicing service that allows the customer to view their invoices online 24/7. Specifically this application is developed for CBC Bank (U.S.). Who they can manage their employee and customer details. Using these application employees/customers can create their own query to view their invoices report based on their needs. This will enable to capture more of the critical information that lives in spreadsheets and other office documents by enabling users to work in a familiar office environment.

Roles & Responsibilities:

- Responsible for code changes and setting the Environment for Windows 7.
- Code Development – including try catch blocks, logging exceptions etc
- Involved in designing databases & creating tables/functions/triggers/stored procedure in SQL Server.
- Understand the requirement of the new system from the customers
- Provided weekly status updates to customers.
- Provided weekly status updates to Project Manager.
- Providing unit testing of data and implementing the system.

PROJECT 4

Title : FWA
Environment : ASP.NET with C#, .NET Framework 4.0, WCF, Telerik Controls, Tsql.
Database : Ms-Sql server 2008.
Team Size : 10.
Role : Team Member.
Period : May 2012 to August 2012
Description :

FWA is an end-to-end web based application for US health care industry. It supports Provider (Physician) and Payer (Health Insurance Company). This analytical tool helps to identify the fraud claims raised by a health care provider, Involving reviewer to review the claims of insurance companies in order to receive payment for services rendered by a health care provider. If any suspect in the claim, reviewer deny the claim and create case against the provider otherwise move to the workflow.

Roles & Responsibilities:

- Responsible for code changes to shared library modules.
- Code Development – Developing business logic and implementation including try catch blocks, logging exceptions etc
- Understand the requirement of the new system
- Involved in designing databases & creating tables/functions/triggers/stored procedure in SQL Server.
- Providing unit testing of data and implementing the system.

PROJECT 5

Title : OBA's
Environment : VS.Net 2010, .Net Framework 4.0, VB.net, VB, Windows 7, Web service, XML, XSLT, TSQL.
Database : Ms-Sql server 2008.
Team Size : 2.
Role : Team Member.
Period : Dec 2011 to April 2012

Description :

Solution Environment: VB.Net with Office Business application using Meridian Prolog web services
Project Description: Office Business Applications (OBA's) built on the Microsoft Office Business Applications Platform is a great way to extend your line of business applications. This will enable you to capture more of the critical information that lives in spreadsheets and other office documents by enabling users to work in a familiar office environment while also contributing to the core line of business application.

An example with Prolog (a popular construction project controls platform) would be using Excel to manage all the information related to submittals or punch list while only updating Prolog with information that is relevant to the project record.

- Standardize form based data collection.
- Reduce duplicate data entry.
- Work online or offline & synchronize anytime.
- Eliminate errors with importing & exporting data.

Roles & Responsibilities:

- Responsible for code changes and setting the Environment for Windows 7.
- Code Development – including try catch blocks, logging exceptions etc
- Understand the requirement of the new system
- Provided weekly status updates to Project Manager and Team lead.
- Providing unit testing of data and implementing the system.

OTHER PROJECTS:

- The OBA Store. (<http://www.theobastore.com/>)
- Passport (<http://www.projectxnet.com/>)
- Rang -de (<http://www.rangde.org/>)
- Sales Force Attachment Import Tool.

PERSONAL DETAILS

Father's name	:	P.Mohammed Bari
Date of Birth	:	21-Dec-1987
Marital Status	:	Married
Nationality	:	Indian
Languages Known	:	English, Tamil.
Permanent address	:	A306 Siddharth The Nest Apt, Rajakilpakkam, Chennai - 600073.

DECLARATION

I hereby declare that the above written particulars are best of my knowledge and belief.
