EXPERIENCE

MANAGER - MATERIAL CONTROLLER

*MAILAM UPKING ENGINEERING LTD, KANCHIPURAM ,
MAY 2021 - NOV 2021*

- My foremost role is to maintain and record the expenses of the materials for each and every project then derive the OPEX of the company every month and do analyse, findings to reduce the expenditures which increases the profit of the company.
- Actual cost are derived for individual projects and compare it to the estimated cost to find the deviation and guide the production unit to work within the target price.
- Insures accurate product value and country of origin are provided in international transactions.
- Communicate with overseas and internal suppliers to ensure materials are delivered on time.
- Every day, Labour workings are monitored and make them to complete the project on time and generate a monthly report which is helpful for their incentive credits.
- Reduced the errors in material department and Increased the standardization by using Six sigma and Lean Methodology.
- Handling the materials subject to Accounting, Procurement, Inventory scrapping, Project and Risk Management.
