Coimbatore institute of technology sandwich polytechnic College

2018

Diploma in automobile engineering
63.7%

Nirmala Matha convent matriculation higher secondary school

2015

SSLC
87.2%

PROJECTS

Design and fabrication of compressed air hydrogen engine.

Now a days in automobile industry there are more vehicle producing harmful substances. Which causes harmful effects to human beings and living beings .By introducing hydrogen it will be reduced.The purpose of this experiment is to reduce the atmospheric pressure by implementing a new engine known as a compressed air hydrogen engine.It also has more power then the present gasoline engines

Fabrication of self loading truck

This mini project is based on loading the truck by itself without the help of bulldozers. According to our project the time taken to load the goods are reduced. Fuel consumption and maintenance costs of bulldozers are eliminated. Usage of hydraulic mechanism to carry out operations like dipper and digger since the hydraulic mechanism has the capacity to withstand heavy loads.

CERTIFICATION

Completed Level 1 in Auto CAD at Coimbatore institute of technology

ACADEMIC ACTIVITIES

Event coordinator for "DHRUVA - 20" a National level Cultural techno festival

PERSONAL DETAILS

Date of Birth : 11/03/2000

Marital Status : Single

Nationality : Indian

Father's name : Mariappan.S

Blood group : B +ve

SKILLS

CAD

Basics of Python

LANGUAGE

English

Tamil

AREA OF INTEREST

CAD Designing

Software development
