Web Techonology  
.Net

## STRENGTHS

- 1.Selfmotivate
- 2.Quicklearner
- 3.Positivethinking
- 4.Hardworking

## PROJECT

**Title:-** An intranet is a private computer network that uses Internet Protocol technologies to securely share any part of an organization's information or network operating system within that organization, and instead refers to a network within an organization.To compete, a company must find ways to communicate instantly and share knowledge across boundaries of time and distance that were once almost impossible to bridge. "Intra Mailing System" utilizes a wide range of emerging digital technology to bridge this gap and give the people in an organization real time access to the information they need, no matter where they are located.
